

ESSENTIAL ... DESIGNED TO BE EFFICIENT

While interpreting the needs of a wider audience,
our ideas have concretized into this new line.

We have accepted «average» features
and compromises such as lacquering
to offer a saxophone suitable for amateurs,
conservatory students and
musicians looking for a solid sub.

A wind instrument company
committed to quality since 1818 ...
enjoy the reliability of a Ramponesax
available within everyone's reach.
